The projects feature various established and up and coming urban vocalists and MCs from the UK and US.

The flavas **Da Supplier** will be bringing you include RnB, Crunk, Grime, Neo Soul, Hip-Hop & Dancehall with the first EP kickin' off on an Up-Tempo RnB tip.

Sensa (USA)

Rising star Sensa is making waves amongst the key "movers and shakers" on the New York RnB circuit with his killer hooks and smooth vocal performances. Described as *pure talent* by New York DJ *Tugee* this Mt. Vernon born artist gets his inspiration from the likes of *Kenny "Baby Face" Edmonds* and not to forget his biggest supporter; his mother.

Gab Gotcha (USA)

Gab Gotcha appeared on *The Beatnuts's Street Level* and *Stone Crazy* albums. Dropping versus on *2-3 Break* and *Bless the M.I.C.* respectively. **Gab** also worked with

V.I.C from the **Groove Merchants** and featured cuts from former **X-Ecutioner**, DJ **Mista Sinista**.

Modwenna (UK)

Up and coming singer-songwriter **Modwenna** from South London shows us her vocal talents on the track *Show Me*. Currently in the studio working on her album this artist comes from a background of listening to *Kelis*, *Lauryrn Hill*, *John Legend* & *Jill Scott*.

The Indispensable (UK)

This highly original UK RnB producer has previously worked with the likes of **Denise Johnson** (George Clinton, Primal Scream, Stone Roses), **Neresa Maye** (Coolio, Rishi Rich) to name but a few. With recent productions getting regular exposure on Radio 1 the Galaxy Network and a big up from the UK urban club DJs here is a force not to be ignored.
