Single: **FRIDAY NIGHT**
Rel Date: 28/04/08 (download only)
Cat #: TOTW001
Format: Digital Release
Genre: Dance, Funky House
Label: Top Of The World Records

Friday Night is the debut single by London based DJ, MC & Producer **Moses**. Released on **Top Of The World Records**, *Friday Night* is a feel good House tune about a first-class guy's night out. With a driving beat and smooth vocals, the track features fast cars, hot women, and free flowing champagne – it's the kind of tune that'll make you want go out and party - and that is exactly it, no pretence - *just a good time*.

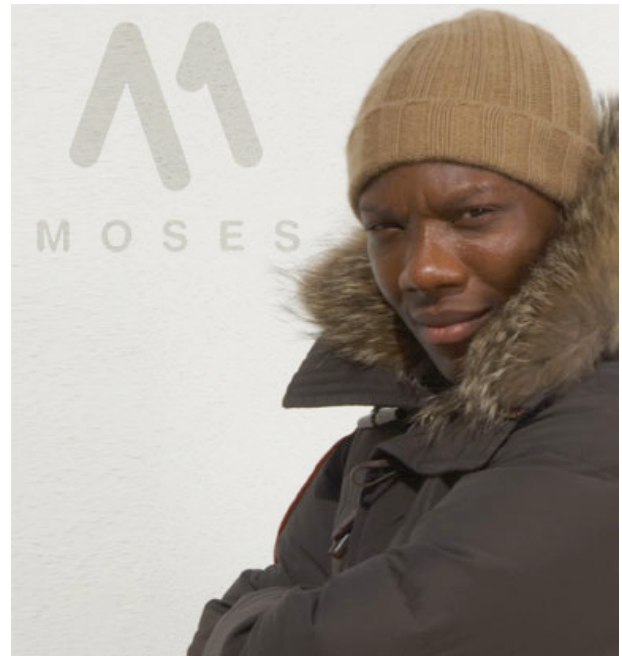

The track features **MC Stylo G** and is co-produced by **Moses**, who is mostly recognisable behind the decks of an international club venue, playing the best in *all things House*. On this release Moses proves he has many strings to his bow.

This youngest of 14 was born in South London & grew up surrounded by many genres of music, soaking up the sounds of everything from the likes of Bob Marley to Michael Jackson, Soul II Soul and 2Pac. From early on, it was clear his heart would lay with music.

Watching his older brothers DJ to energetic crowds at local parties, Moses dreamt of developing the same skills & set about saving for his first sound

system. By 1986 Moses launched himself onto the DJ circuit and began DJing in and around London honing & developing his skills on the decks.

Living life by the motto "*only you can make yourself succeed*", **Moses** became a sought after international DJ by the age of 21, following a chance performance in Majorca that turned into a 7-year residency. Then went on to play in cities all over Europe and in particular; Germany, Ibiza and Spain.

After these 7 years **Moses** came back to the UK to pursue his dream of making music – pausing only momentarily to run his own successful property business. He is now in his element, making the style of music that he loves - *First Class Party inspired House Music*.

Friday Night is a floor-filling House Anthem from this hotly anticipated new UK artist who is set for big things.

The single has had early radio support on **Pete Tong's 'Dance Anthems'** on **BBC Radio 1** and is playlisted on London's **Choice FM**.
